

INCORPORATED VILLAGE OF FARMINGDALE
361 MAIN STREET
FARMINGDALE, NY 11735
BOARD OF TRUSTEES
WORK SESSION
AGENDA
Monday May 4, 2026

1. Tonight's public hearings/hearings to be scheduled.
2. Discussion regarding consideration for a memorial placard at the Village Green Gazebo in honor of Brad DeMilo, long time band director at Farmingdale High School and first Maestro of the Village Pops.
3. Fire Department: Apparatus floor lavatory door has been repaired. All main bay doors have been upgraded with new rollers and fittings as required. Quote requested for remote control modification for all of the bay doors for use during overnight hours.
4. Building Department: 7—11 and Sunoco – permit is pending fee has been paid. Demolition permit issued for canopy and gas station equipment only and project completed. Need demo for stores. Verizon Clock Tower cell service installation @ Marquis Shopping Center adjourned until 6/1/2026 @ 8PM. Multi-family and rental inspections underway. Plan reviews and follow up on nuisance issues. McGraths has proposed expansion of upstairs for private party room, That appears to have changed as McGraths is proposing a 207 occupancy with 1 119 seat restaurant. There are additional parking implications as a result of the proposed intensification. Toretta estates – ongoing construction of homes on south side of Toretta Lane to continue plans being reviewed. Permit issued for 4 Toretta construction started. Backlog of open building permits being addressed for close out. Applications for a coffee shop and chicken restaurant in Marquis Plaza Shopping Center are in process – permits issued nearing completion. Illegal rentals being investigated. Building permit issued for 195 Main Street façade. Interior alterations stopped at 195 main Streett and Former Scoops and Cones.
5. Highway Department: Lot Maintenance and Routine Maintenance of Main Street: Routine garbage pick-up in Parks and dog stations: North Main Street Pole Removal Project underway. Poles have been removed. New water main installation has been completed and service connections to 19 locations is underway. Completion of the entire project by mid/end of June 2026. Met with National Grid re: paving roads (Yoakum, Hillside and Fairview) where new mains have been installed and agreed on paving reimbursement from National Grid, received paving reimbursement, will schedule for paving to be completed in Spring of 2026 in conjunction with Thomas Powell Blvd. Need new grate in Moby Way/ordering thru Roadwork Ahead. Installation of new piping system connecting Tulane Sump to Arthur Street nearing completion. A new National Grid Project in the Southeast section of the village was approved and negotiations underway for paving re-imburement.

From Kenny Tortoso:

- 1# Castro Landscaping has been in working on spring clean ups and mulching.
- 2# DPW crews have been cleaning out Village sumps, removing trash and debris.
- 3# DPW crews are still out power washing the downtown area sidewalks, including our gazebos.
- 4# DPW have been working inside Jackson Ave removing wood chips and debris.
- 5# Town of Oyster Bay Lighting has been in repairing streetlights.

INCORPORATED VILLAGE OF FARMINGDALE
361 MAIN STREET
FARMINGDALE, NY 11735
BOARD OF TRUSTEES
WORK SESSION
AGENDA

Monday May 4, 2026

6# Stapleton Tree has been in removing dead trees and stump grinding, will be back in May for more removals and trims.

7# DPW assisted the water department with fire hydrant flushing.

8# DPW will be going out to paint fire hydrants with weather permitting.

9# Village flowers should be delivered on the week of the 11th, DPW is ready for planting.

10# DPW shop crews have been busy with repairs and NYS inspections and services.

11# We also added a garbage can by the parking meter behind Gino's Pizza.

12# Ordered an animal waste basket for 148 S Front Street, should be here next week.

6. Water Department: Well 1-3 is fully operational. Variable speed pump drive to be installed the week of May 4, 2026. Plant 2 Well 2-2 & 2-3 will be in full operation for the pumping season. SCADA system Eagle Control in process of completing system last line is installation of a telephone line by Hello-Alert. Evaluation of ground tank roof and structure for repairs and/or replacement has been completed, next steps being developed by BH, John Mirando and D&B. Grant commitment from Senator Schumer and Congressman Suozzi for \$1.0 + million for partial payment of a new ground tank. A grant application was made through Congressman Suozzi's office in the amount of \$2 million for site work, piping for the proposed new tank and the demolition of the existing ground storage tank once the new tank is fully operational.

Coordination between South Farmingdale Water District and Farmingdale Water Department is working well.

From John Falbo:

#1 Ongoing work with Eagle for SCADA installation: Well house clean up and painting ongoing testing - underway.

#2 Curb box, main mark outs & repair work for Main Street project & next phase of Linwood project are well underway. Listed all connections for the Main Street Project

#3 Main Street Water Main Installation is complete. Tested and in service. Service lines are now being installed.

#4 Water main break on Thomas Powell Blvd and Hamilton Street, Merrick Utilities and Village Water Department did the repairs.

#5 Hydrant flushing was a success.

7. Code Department: Weekly inspections of meters are done to check for any malfunctions (i.e. coins jammed in credit card receptacles): Looking into metal detector for court nights.

April 13 2026

Dear Mayor Ekstrand and Village Board,

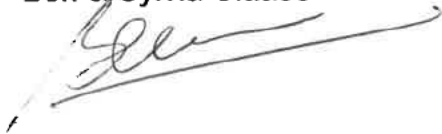

We are contacting you with a request for your kind consideration.

As you know, our local musical Maestro, Brad DeMilo, passed away this past fall, and his family, the Farmingdale community, and his musical friends miss him dearly. We are hereby requesting consideration to place a placard in honor and memory of our dear musical friend at the Village Green Gazebo and consider naming the Gazebo "The Bradford DeMilo Pavillon". Perhaps with a short history of Brad.

Brad was an integral part of the local Farmingdale music scene and education system and also the first Maestro of the Village Pops over 40+ years ago. Keeping his memory alive is not just deserved but earned, and we are certain that many other village residents would support this undertaking.

Please let us know if there is anything needed from our end. We can be reached at the above address or via cell at ([REDACTED])

Sincerely,
Ben & Sylvia Claase

WORK SESSION OF THE BOARD OF TRUSTEES
Monday, April 6, 2026
INC. VILLAGE OF FARMINGDALE

The Work Session of the Board of Trustees of the Incorporated Village of Farmingdale was held at 7:00 p.m. on Monday, April 6, 2026.

Present: Mayor Ralph Ekstrand
Deputy Mayor William Barrett
Trustee Cheryl Parisi
Trustee Walter Priestley
Trustee Craig Rosasco
Administrator/Clerk/Treasurer Brian Harty
Deputy Clerk/Treasurer Daniel Ruckdeschel
Village Attorney Claudio DeBellis

The following topics were discussed:

- Tonight’s public hearings/hearings to be scheduled: Discussed scheduling a public hearing for a new brewery.
- Discussion: Tenants in the Loft apartments on Main Street want a “No Trucks” sign for Moby Way because a truck hit the building for the 4th time in 3 years. Need plans for new intersection at Moby Way and Main Street. Superintendent Patanjo will supply the plans.
- Discussion: authorizing a towing service provider – Need to find proposed towing companies with cost estimates.
- Fire Department:
 - Floor issues
 - Mike DiBartolo – new 2nd Assistant Chief status

The discussion continued on the following topics:

- Building Department:
 - 7-11 and Sunoco – Permit has been issued, fee has been paid. Demolition permit issued for canopy and gas station only, project started. Need demo for stores.
 - Verizon Clock Tower cell service installation at Marquis Shopping Center has been adjourned until June 1, 2026 at 8:00 p.m.
 - Multi-family and rental inspections underway.
 - Plan reviews and follow up on nuisance issues.

WORK SESSION OF THE BOARD OF TRUSTEES

Monday, April 6, 2026

INC. VILLAGE OF FARMINGDALE

- McGrath's has proposed expansion of upstairs for private party room, Building Inspector Cinquemani and architect are in discussions.
- Toretta Estates – ongoing construction of homes on south side of Toretta Lane continues, plans being reviewed. A permit has been issued for 4 Toretta Lane, construction started.
- Backlog of open building permits is being addressed for close out.
- Applications for a coffee shop and a chicken restaurant in Marquis Plaza Shopping Center were filed, permits have been issued.
- Illegal rentals being investigated along with violations at 485 Main Street.
- Building permit issued for 195 Main Street facade.
- Interior alterations stopped at 195 Main Street & the former Scoops & Cones at 95 Hempstead Tpke.
- Highway Department:
 - Lot maintenance and routine maintenance of Main St.
 - Routine garbage pickup in parks and dog stations
 - North Main Street Pole Removal Project underway and poles have been removed. New water main installation will be done as will remaining work when weather breaks in the spring of 2026 with completion of the entire project by the end of June 2026.
 - Met with National Grid regarding paving roads (Yoakum Ave., Hillside Rd. & Fairview Rd.) where new mains have been installed and received the agreed paving reimbursement from National Grid. Will schedule paving work to be completed in the spring of 2026.
 - Need new grate in Moby Way, ordering through Roadwork Ahead.
 - Electric charging stations installation completed. Grant received from PSEGLI, public relations photo op planned for April 2026 when the weather clears.
 - Installation of new piping system connecting the Tulane sump to Arthur Street will be done in the spring of 2026 due to severe current and projected weather conditions.
 - Look into righting a bush at the Tulane sump.
 - Discussed head in requirement for handicapped parking.

WORK SESSION OF THE BOARD OF TRUSTEES

Monday, April 6, 2026

INC. VILLAGE OF FARMINGDALE

- Discussed possible crosswalk at Secatogue Avenue and Staples Street.
- From Ken Tortoso – DPW weekly work assignments:
- Crews are still out power washing Main Street sidewalks in the downtown area.
- Town of Oyster Bay Lighting was in again to address the Lenox Court lighting issue. We're going to order a new fixture.
- Crews are still out filling potholes.
- Crews have been prepping for the upcoming flower plantings.
- Capital truck five is at R&W Equipment getting its new body.
- Sweeper has been out in full force.
- Stapleton is coming in next week to remove dead trees.
- Crews started working in the parking lots cleaning.
- Heads Up Irrigation is coming in to go over our sprinkler systems.
- Water Department:
 - Well 1-3 is fully operational.
 - Plant 2 Wells 2-2 & 2-3 will be in full operation for the pumping season.
 - SCADA system - Eagle Control is in the process of completing the system. Electrical issues are being addressed by PRI and Hinck.
 - Evaluation of ground tank roof and structure for repairs and/or replacement has been completed. Next steps are being developed by John Mirando and D&B to begin repairs and/or replacement to the ground tank are underway.
 - Grant commitment from Senator Schumer and Congressman Suozzi for \$1.0+ million for partial payment of a new ground tank.
 - A grant application was submitted through Congressman Suozzi's office in the amount of \$2 million for site work, piping for the proposed new tank and the demolition of the existing ground storage tank once the new tank is fully operational.
 - Coordination between South Farmingdale Water District and Farmingdale Water Department is working well.
 - From John Falbo:

WORK SESSION OF THE BOARD OF TRUSTEES

Monday, April 6, 2026

INC. VILLAGE OF FARMINGDALE

- Ongoing work with Eagle for SCADA installation. Well house clean up and painting ongoing testing.
- Curb box, main mark outs & repair work for Main Street project & next phase of Linwood project. Listed all connections for the Main Street project.
- Main Street Water Main installation is underway.
- Code Department:
 - Weekly inspections of meters are done to check for any malfunctions (i.e. coins jammed in credit card receptacle).
 - Looking into metal detector for court nights.

EXECUTIVE SESSION – Upon a motion made by Deputy Mayor Barrett and seconded by Trustee Parisi, it was,

RESOLVED (#2026-04-01), to move to Executive Session.

Upon a motion made by Trustee Parisi and seconded by Deputy Mayor Barrett, it was,

RESOLVED (#2026-04-02), to reconvene the meeting.

LEAVE OF ABSENCE – Upon a motion made by Trustee Rosasco and seconded by Deputy Mayor Barrett, it was,

RESOLVED (#2026-04-03), to approve a 3 month leave of absence for Bharti Sabhaya.

There being no further business, the Board adjourned to the regular meeting at 8:00 p.m.

Respectfully submitted,

Brian Harty, Village Clerk-Treasurer

LEGAL NOTICE

**NOTICE OF PUBLIC HEARING
VILLAGE OF FARMINGDALE**

PLEASE TAKE NOTICE that the Board of Trustees of the Village of Farmingdale will hold a Public Hearing on the 18th day of May 2026 at 7:00pm at Farmingdale Village Hall located at 361 Main Street, Farmingdale, NY 11735 regarding the granting of a cable television franchise agreement by and between the VILLAGE OF FARMINGDALE and CABLEVISION SYSTEMS LONG ISLAND CORPORATION. A copy of the cable television franchise agreement is available for public inspection during normal business hours at Farmingdale Village Hall, 361 Main Street, Farmingdale, NY 11735. At such public hearing all persons will be given an opportunity to be heard. Written and oral statements will be taken at that time. Time limitations may be imposed for each oral statement as necessary.

**BY THE ORDER OF THE
BOARD OF TRUSTEES
INC. VILLAGE OF FARMINGDALE**

**BRIAN HARTY, ADMINISTRATOR-
VILLAGE CLERK/TREASURER**

DATED: May 2, 2026

INCORPORATED VILLAGE OF FARMINGDALE

BOARD OF TRUSTEES DECISION IN RE: SPECIAL PERMIT APPLICATION OF STAY GREEN BREWING, LLC. 211A MAIN STREET FARMINGDALE, NEW YORK

WHEREAS, The Incorporated Village of Farmingdale (“VILLAGE”) is a municipal corporation duly organized under the laws of the State of New York; and

WHEREAS, Stay Green Brewing, LLC. (APPLICANT) is the tenant of the property located at 211A Main Street, Farmingdale, New York and known as Section 49; Block 76; Lot 26(the “PROPERTY”); and

WHEREAS, the PROPERTY is currently located in the Business D-MU Zoning District of VILLAGE; and

WHEREAS, APPLICANT proposes to operate a brewery and tasting room (ACTION) and has submitted a change of tenancy application in connection with the ACTION; and

WHEREAS, the ACTION is subject to review under 6 NYCRR Part 617, the New York State Environmental Quality Review Act, (“SEQRA”); and

WHEREAS, The Board of Trustees for the Incorporated Village of Farmingdale (“VILLAGE BOARD”) has declared itself Lead Agency pursuant to SEQRA, declared the ACTION to be an unlisted action with no significant, adverse environmental impacts and issued a negative declaration and notice of determination of non-significance; and

WHEREAS, the change of tenancy application was received understands that the zoning code of the Incorporated Village of Farmingdale requires (the “Code”): (1) special permit required for bar and grill establishments (Code §600-128(A)(1); and (2) No loading space provided (Code §600-141). Parking requirements had been previously satisfied by a prior tenant

WHEREAS, Article XVIII, Section 600-131(C) authorizes the VILLAGE Board of Trustees to waive off-street loading and unloading requirements where such loading is infeasible given existing parking lots that otherwise serve the subject site; and

WHEREAS, for relief from the loading requirement deficiency pursuant to Section 600-131(C); and

WHEREAS, In accordance with the Zoning Code of the Inc. Village of Farmingdale, the Superintendent of Buildings has reviewed the application and recommends approval of the Board of Trustees on May 4, 2026.

NOW, THEREFORE BE IT DECIDED, that VILLAGE BOARD grants a Special Permit to operate the brewery and tasting room, and loading requirements, subject to the following conditions:

1. Full compliance with:
 - a. The Floor plan prepared by Core Group Architects and revised by Stay Green Brewing , LLC. Twenty (20) Seats
 - b. All Federal, State, or local law and any directives of the Building Department of the Inc. Village of Farmingdale; and

2. The noncompliance with any of the terms or conditions of this decision shall result in the immediate revocation of the building permit and special permit unless the Board of Trustees determines, for good cause, that revocation is not in the best interests of the VILLAGE.

3. Hours of operation: Monday-Thursday 2pm-10pm, Friday and Saturday 11am-Midnight, Sunday 11am-7pm.

Dated: May 4, 2026

This approval is granted by a vote as follows:

Mayor Ralph Ekstrand	Absent
Deputy Mayor Willam Barrett	aye
Trustee Cheryl Parisi	aye
Trustee Walter Priestley	aye
Trustee Allison Ingram	aye

DULY ADOPTED, by the Board of Trustees, as of this 4th day of May, 2026.

William Barrett
Deputy Mayor
Incorporated Village of
Farmingdale

Dated: May 4, 2026

Village Administrator

**VILLAGE OF FARMINGDALE
CODE ENFORCEMENT AND PARKING VIOLATIONS
DIGITAL ENFORCEMENT SOFTWARE AND HARDWARE
PROPOSAL FOR ADDITIONAL DEVICE**

The Village of Farmingdale may require additional device combinations with software to the current integrated platform.

The additional handheld computerized hardware centers around the Zebra TC27, a modern Android-based smart mobile computer designed specifically for field environments. Running the latest Android operating system, the TC27 combines durability, connectivity, and performance in a compact, ergonomic form factor ideal for enforcement personnel. Its bright, responsive display provides a practical viewing area for efficient data entry, review, and verification in both daylight and low-light conditions. Integrated barcode scanning and high-resolution image-capture capabilities allow officers to quickly process vehicle information and document violations with clarity and precision.

Complementing the handheld device is the Seiko MP-B30 mobile printer, deeply configured and optimized for seamless operation with the Zebra TC27. The printer has been specified and tested to reliably produce the Village's official parking citation format, ensuring accurate ticket presentation and consistent output quality. Its compact, field-ready design supports dependable performance throughout a full shift of enforcement activity. The solution is powered by SIDEKICK Issuance Software, currently in use and fully configured for immediate deployment. SIDEKICK integrates directly with the handheld and printer platform, providing structured workflows, automated validation, and efficient ticket generation out of the box. This eliminates the need for extensive customization while preserving the Village's established issuance processes and reporting requirements. Together, the Zebra TC27, Seiko MP-B30 printer, and SIDEKICK software form a cohesive, field-proven ecosystem that enhances productivity, reduces manual effort, and ensures accurate, defensible enforcement activity. This integrated approach modernizes operations while maintaining continuity with existing systems and procedures.

TC22/TC27 Mobile Computers

The ultimate cost-effective tool for small businesses — with big business features

Your small or mid-size business competes with industry giants that use the latest enterprise mobile devices to give workers a competitive edge—but the smartphones in your budget don't offer the features you need. Introducing the equalizer—the TC22/TC27 mobile computers. The third generation of the highly successful TC2x Series, the TC22/TC27 delivers the best of all worlds—smartphone styling and pricing, with big business features that boost productivity and customer service quality. This compact, powerful device offers a large 6 in. display, 5G, Wi-Fi™ 6E, integrated scanners, support for tap-to-pay and other contactless transactions and more. This durable device is built to outlast consumer phones, providing a better return on investment. And Zebra's portfolio of services can help you get and keep your devices up and running at peak performance. Get the boost you need to compete with any size business with the TC22/TC27—the smartphone style workers want, the features your business needs, all at a price you can afford.

The Smartphone-Style Device That's Made for Work

Power All Your Apps—Simultaneously

Get superior performance on all your apps with a next generation processor that delivers twice the performance of the prior generation,¹ plus class-leading memory and data storage options.

The Best Wireless Has To Offer

When it comes to wireless, the TC22/TC27 offers it all. 5G and Wi-Fi 6E² deliver wired speeds, providing workers with better voice and data performance inside and outside of your facility.

Support for private 5G and CBRS³ private LTE networks enables cost-effective wireless connectivity in the largest indoor and outdoor facilities. Bluetooth® 5.2 delivers better audio quality while consuming less power, and adds unique features that enable effective ways to communicate and collaborate.

The Best of Android™—Today and Tomorrow

Support through Android 16 ensures you won't outgrow the operating system—you'll have access to the latest features every day your device is in service.

See More and Scroll Less With an Advanced 6 in. FHD+ Display

The larger screen delivers more display space and the bright 450 nits screen is easy to read anywhere—indoors and outside.

Capture Barcodes In Less Time—With Less Effort

Compared to scanning with a mobile phone camera, Zebra's enterprise-class scanning options enable workers to capture barcodes in nearly half the time, with half the muscle work.⁴ Choose from the SE4710 1D/2D standard scan engine or the SE55 1D/2D Advanced Range scan engine with Intellifocus™ technology, able to scan items in hand or on the highest warehouse shelf. Both options deliver split second first time capture of virtually every barcode, regardless of condition.

Ready for the World of Contactless Transactions

Easily integrate the TC22/TC27 with your existing POS contactless payment solution, allowing customers to simply tap to pay. In addition, the built-in support for Apple VAS and Google SmartTap enables the TC22/TC27 to read tickets, loyalty and gift cards, boarding passes and more stored in Apple or Google wallets.

The smartphone style device with a smartphone pricetag—and all the business features you need to compete.

For more information, please visit www.zebra.com/tc22-tc27

Ergonomically Designed for All Day Comfort

The TC22/TC27 is nearly 10% thinner than its predecessor, with a contoured surface that reduces pressure points and provides a more secure and comfortable grip for any size hand.

A Durable Design Built To Last for Years

The TC22/TC27 is waterproof, dustproof, drop-proof and tumble-proof, thanks to an improved design, IP68 sealing, plus drop and tumble tests that are even more aggressive than the industry standard MIL-STD 810H and IEC. And shatter-and-scratch-resistant Corning® Gorilla® Glass protects two of the most vulnerable features—the display and scanner exit window.

Power Every Minute of Every Workday

Choose the battery that will keep pace with your workers—the standard 3800 mAh battery for full shift power; the extended 5200 mAh battery for multi-shift power. With removable batteries, you never need to take the device out of service for charging.

Purpose-Built Accessories Make Every Job Easier

Single- and multi-slot cradles meet every charging challenge—from desktop to backroom. Make scan-intensive tasks easy with a snap-on trigger handle. Give workers instant hands-free freedom with a wearable arm mount. Boost ruggedness with a protective boot—ideal for workers in the field. Make carrying easier with a holster or a handstrap—from the retail store to delivery drivers on the road.

The Zebra-Only Difference—Mobility DNA

Get a Built-In Advantage With No-Cost Mobility DNA Professional

Increase security and simplify deployment, management and data capture with these ready-to-use free tools. Add powerful enterprise features to standard Android. Stage devices with your apps, network settings and more in seconds. Control the applications and features workers can access to protect productivity. Enter barcodes into your apps right out of the box—no programming required. Keep your devices secure every day they are in service with timely Android updates and patches. Control the GMS apps and services that are available on your devices. Collect targeted diagnostics for easier troubleshooting. Test all main device systems with the press of a button.

Maximize Device Functionality, Workforce Productivity and the User Experience With the Optional Mobility DNA Enterprise License

Simultaneously capture all the barcodes you need, even if they are on multiple labels, all with just a single press of the scan button. Capture and crop a document image, detect signature presence and capture a barcode in one button press. Simplify data entry with a customized soft keyboard. Provide unsurpassed 'won't drop' wired style Wi-Fi connections every minute of every shift. Simplify Bluetooth accessory management. Turn Workstation Connect cradles into powerful workstations with Workstation Connect software.⁵ And powerful additional licensable tools add even more value. Track and locate missing devices that are equipped with a BLE battery, even if the battery is dead.⁶ Use the cloud to easily deploy, configure and manage all of your Mobility DNA tools—anywhere and anytime.⁷

Bring More Value With Added Functionality

Create a Mobile-Driven Workstation or Hybrid Point-of-Sale (POS)

The Workstation Connect solution lets you instantly create a workstation on demand or a POS station—just connect a monitor, keyboard, mouse, printer, scanner or a payment terminal to a Connect cradle and dock your device. No need to purchase and manage separate fixed workstations. And using devices you already own to create POS stations on demand, allows you to add and place POS stations when and where you need them—without expensive cabinetry or rearranging your store.

Create a Lightning-Fast RFID Reader

Take inventory in record time with the standard range RFD40 UHF RFID sleds and the standard- or extended-range RFD90 Ultra-Rugged UHF RFID sleds. Connect via Zebra's eConnex™ adaptor or hassle-free Bluetooth—and easily manage sleds over-the-air via Wi-Fi.⁹

Turn the TC22/TC27 Into a Two-Way Radio and PBX Handset⁸

Add push-to-talk (PTT) over Wi-Fi, right out of the box. Quickly and easily give workers out in the field the power of PTT over the cellular network and secure messaging with a cost-effective subscription service. And add fully-featured PBX handset functionality with a custom interface that makes it easy to execute even the most complex telephony features.¹⁰ The result? You get more out of the devices you already own. There are fewer devices to purchase and manage, reducing costs—and creating a greener enterprise.

Specifications

Physical Characteristics

Dimensions	6.5 in. L x 3.0 in. W x 0.49 in. D 165 mm L x 76.3 mm W x 12.5 mm D
Weight	8.32 oz/236 g (TC22 3800mAh battery) 9.24 oz/262 g with 5200mAh battery

Secure. Compliant. Always On.

MedixSafe provides the **most advanced narcotics tracking and safe management platform** available, delivering a fully automated solution for **DEA compliance, medication security, narcotics tracking, and drug diversion prevention**.

MedixSafe controls the entire solution and therefore the entire user experience. The physical safes, the electronics to control safe access and narcotics tracking, and the software to deliver a seamless experience for both Medics and Administrators, is all developed and managed by MedixSafe.

Designed by EMS professionals for real-world EMS, Fire, and Healthcare environments, MedixSafe systems deploy quickly in **vehicles, stations, pharmacies, clinics, and hospitals**—with no servers, no software updates, and no IT overhead. Our rugged, Made-in-America safes operate seamlessly online or offline, ensuring continuous compliance and protection without disrupting daily operations.

ONLINE

- ✓ Real-time transactions and alerts
- ✓ User enrollment
- ✓ Remote Open
- ✓ Configuration & software updates
- ✓ MedixSafe monitoring & diagnostics

OFFLINE

- ✓ Full capabilities
- ✓ Access
- ✓ Offline logging
- ✓ Remote open
- ✓ Diagnostics

Close the door. Everything else just works.

The Premium Standard in Controlled-Substance Safes

MedixSafe delivers the most advanced portfolio of **vehicle, station, and healthcare safes** available today—designed for organizations that demand uncompromising security without added complexity. With seven standard size options and next-generation controlled-substance tracking, MedixSafe provides unmatched protection against drug diversion across your entire operation.

Technology That Works in the Background

Our safes are engineered to be nearly invisible to the people who use them. No complicated workflows. No constant maintenance. No IT burden. Just reliable, secure performance—day in and day out.

"Medics simply opens the door, removes the medication, closes the door. The MedixSafe solution automatically tabulates and vial that was removed from the safe and displays any change on the LCD screen on the safe door", Courtney Gibson, CTO/CISO MedixSafe.

MedixSafe Smart Tags: transparent for easy inspection of vial contents and form factor that supports all common vial size. Smart tags are programmed to include expiry dates, lot numbers and serial numbers.

There are **no servers to manage, no software to update, and no disruption to operations.** Continuous monitoring is included, and MedixSafe safes remain fully functional **even when network connectivity is unavailable**, ensuring access, accountability, and compliance at

all times.

Designed for Real-World Use

MedixSafe integrates seamlessly into your existing environment:

- Use **existing access badges, building cards, or PINs**
- Optional **FBI-certified fingerprint authentication** for the highest security
- Minimal training—crews barely notice the technology is there
- Revolutionary **Tag-and-Go™** technology enables tagging up to **20 vials per minute**, making inventory intake fast and nearly effortless

Purpose-Built for Every Environment

Vehicle Safes

Available in three sizes for easy installation in any vehicle. Powered by 12-volt vehicle power or standard AC outlets. Supports Wi-Fi or Ethernet connectivity for continuous monitoring, with automatic log uploads when vehicles return to station connectivity.

Station Safes

Available in three sizes for facilities of any size. Standard Ethernet and Wi-Fi connectivity, with fully customizable access rules and options such as multi-factor or two-person authentication for maximum accountability.

Healthcare Safes

Designed specifically for clinical environments, MedixSafe healthcare safes feature a **high-grade antimicrobial powder coating** to support infection-control protocols while maintaining a clean, professional, and premium appearance—without compromising

durability or security.

High Security, Made Easy

- Fully customizable access controls
- Complete audit logs, online or offline
- Battery backup to ensure continuous access
- Fully controlled emergency remote open, with full audit logging—even if the safe is offline

End-to-End Security Without Compromise

MedixSafe protects not only your medications, but also your data and your network.

- **Patented user-data protection** ensures credentials and biometric data are never retrievable—even if a safe is stolen
- **FIPS-compliant end-to-end encryption** secures all data and audit logs
- **Network-hardened architecture** with certificate-based authentication, secure boot, code signing, and full memory encryption

MedixSafe

Invisible technology. Unmatched protection.

Why MedixSafe

- **16 years** serving EMS, Fire, and Healthcare
- **1,000+ customers**
- **4,000+ deployments**
- **6 product innovation awards**
- Designed, built, tested, and supported in-house
- Staffed by professionals with EMS, fire, and nursing backgrounds

We don't sell safes—we build long-term partnerships.

Loc applied for Grant

Dear Lorraine :

Your invoice is attached for the Revolutionary War memorial Farmingdale village would like to place in the memorial square in front of village hall to commemorate our 250th anniversary as a nation.

I would think that this memorial should be placed in front of the police sub-station but would like to meet with someone (probably Brian) to confirm the location.

I am ordering the granite immediately so that we can begin work on the project but I will need someone to return to me a signed copy of the drawing so that I can manufacture the stone.

Please let me know if there are any questions.

Thank you for your business - we appreciate it very much.

Sincerely,

Jim Neuburger

Surplus

Village of Farmingdale DPW truck 7

2012 Ford F350

VIN # 1FTRF#B6XCEC99772

5/4

Mileage 45703.6

This truck is used for our everyday tasks in the village, also important to our winter operations for plowing, we could not snow plow with it this past winter, those issues hampered our plowing operations in clearing parking lots and other tight locations that our larger plows can't fit

It is my option that putting more into this vehicle will just be a waste of time, effort and money.

Issues!

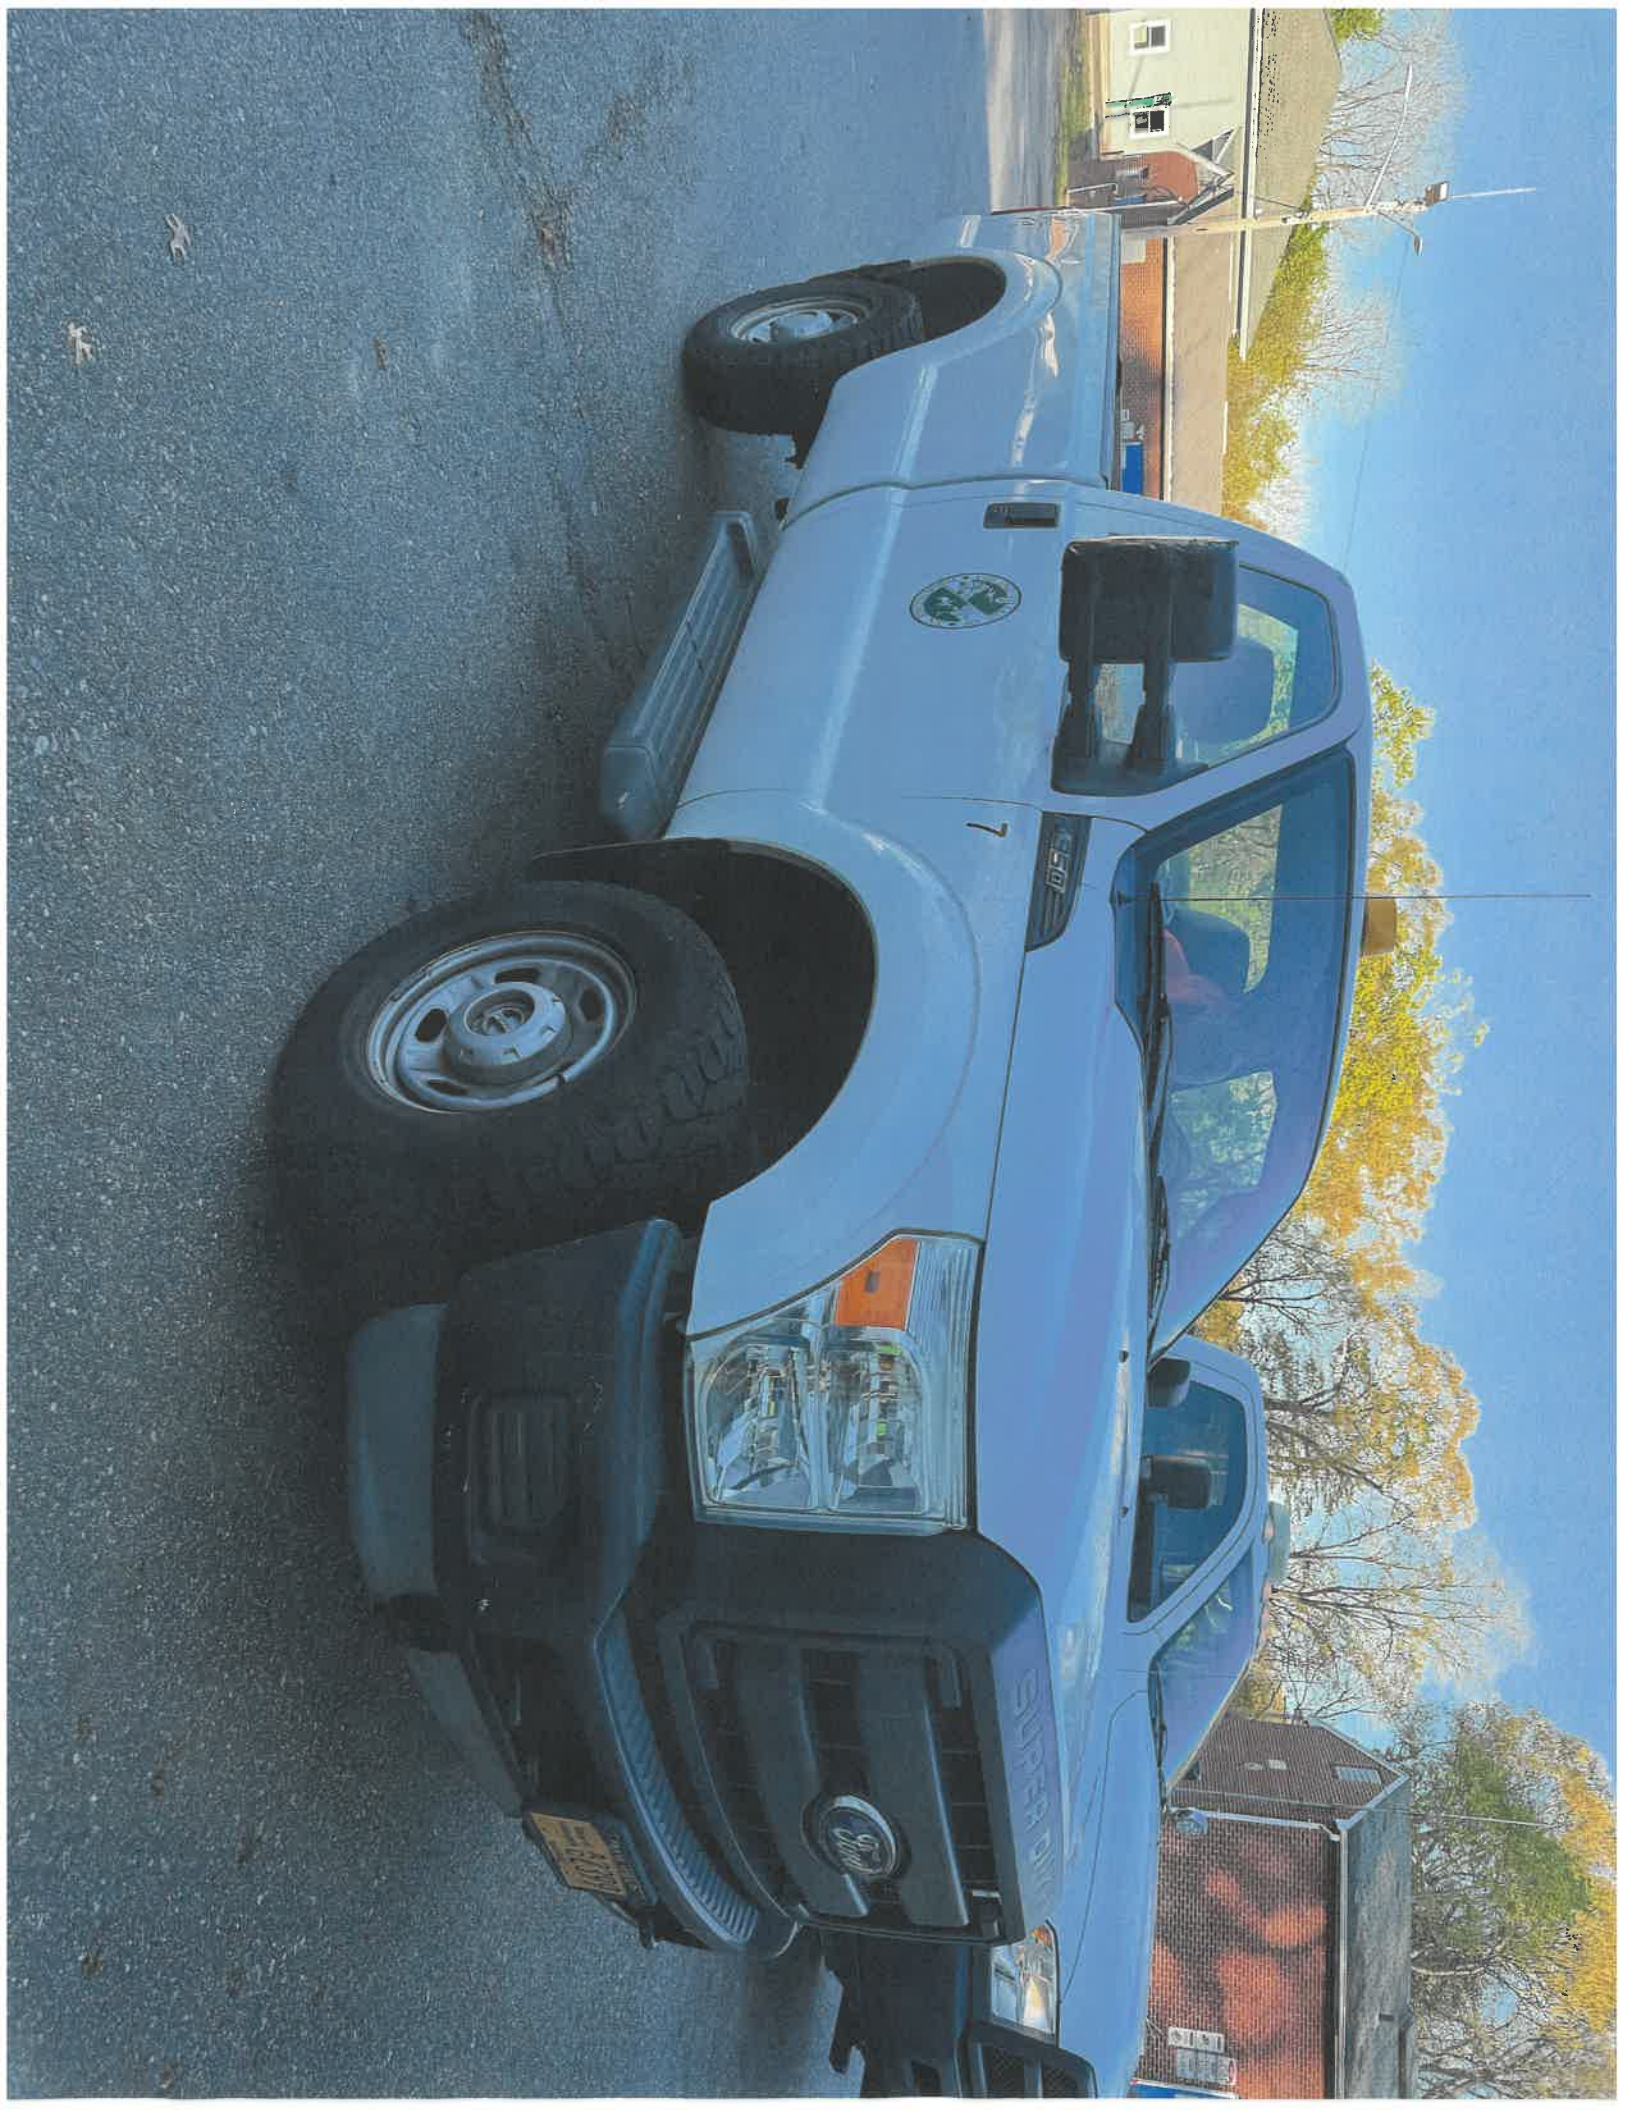

No air conditioning, been recharged many times, too many leaks, expensive to replace the whole system.

Moderate to rust on the under carriage

Transmission issues, no 4 wheel drive

Plow frame damaged due to many years of Hard plowing

Intermittent engine and electric issues

Surplus

Village of Farmingdale Water Dept #2

2016 Dodge ram 1500 X chief's car

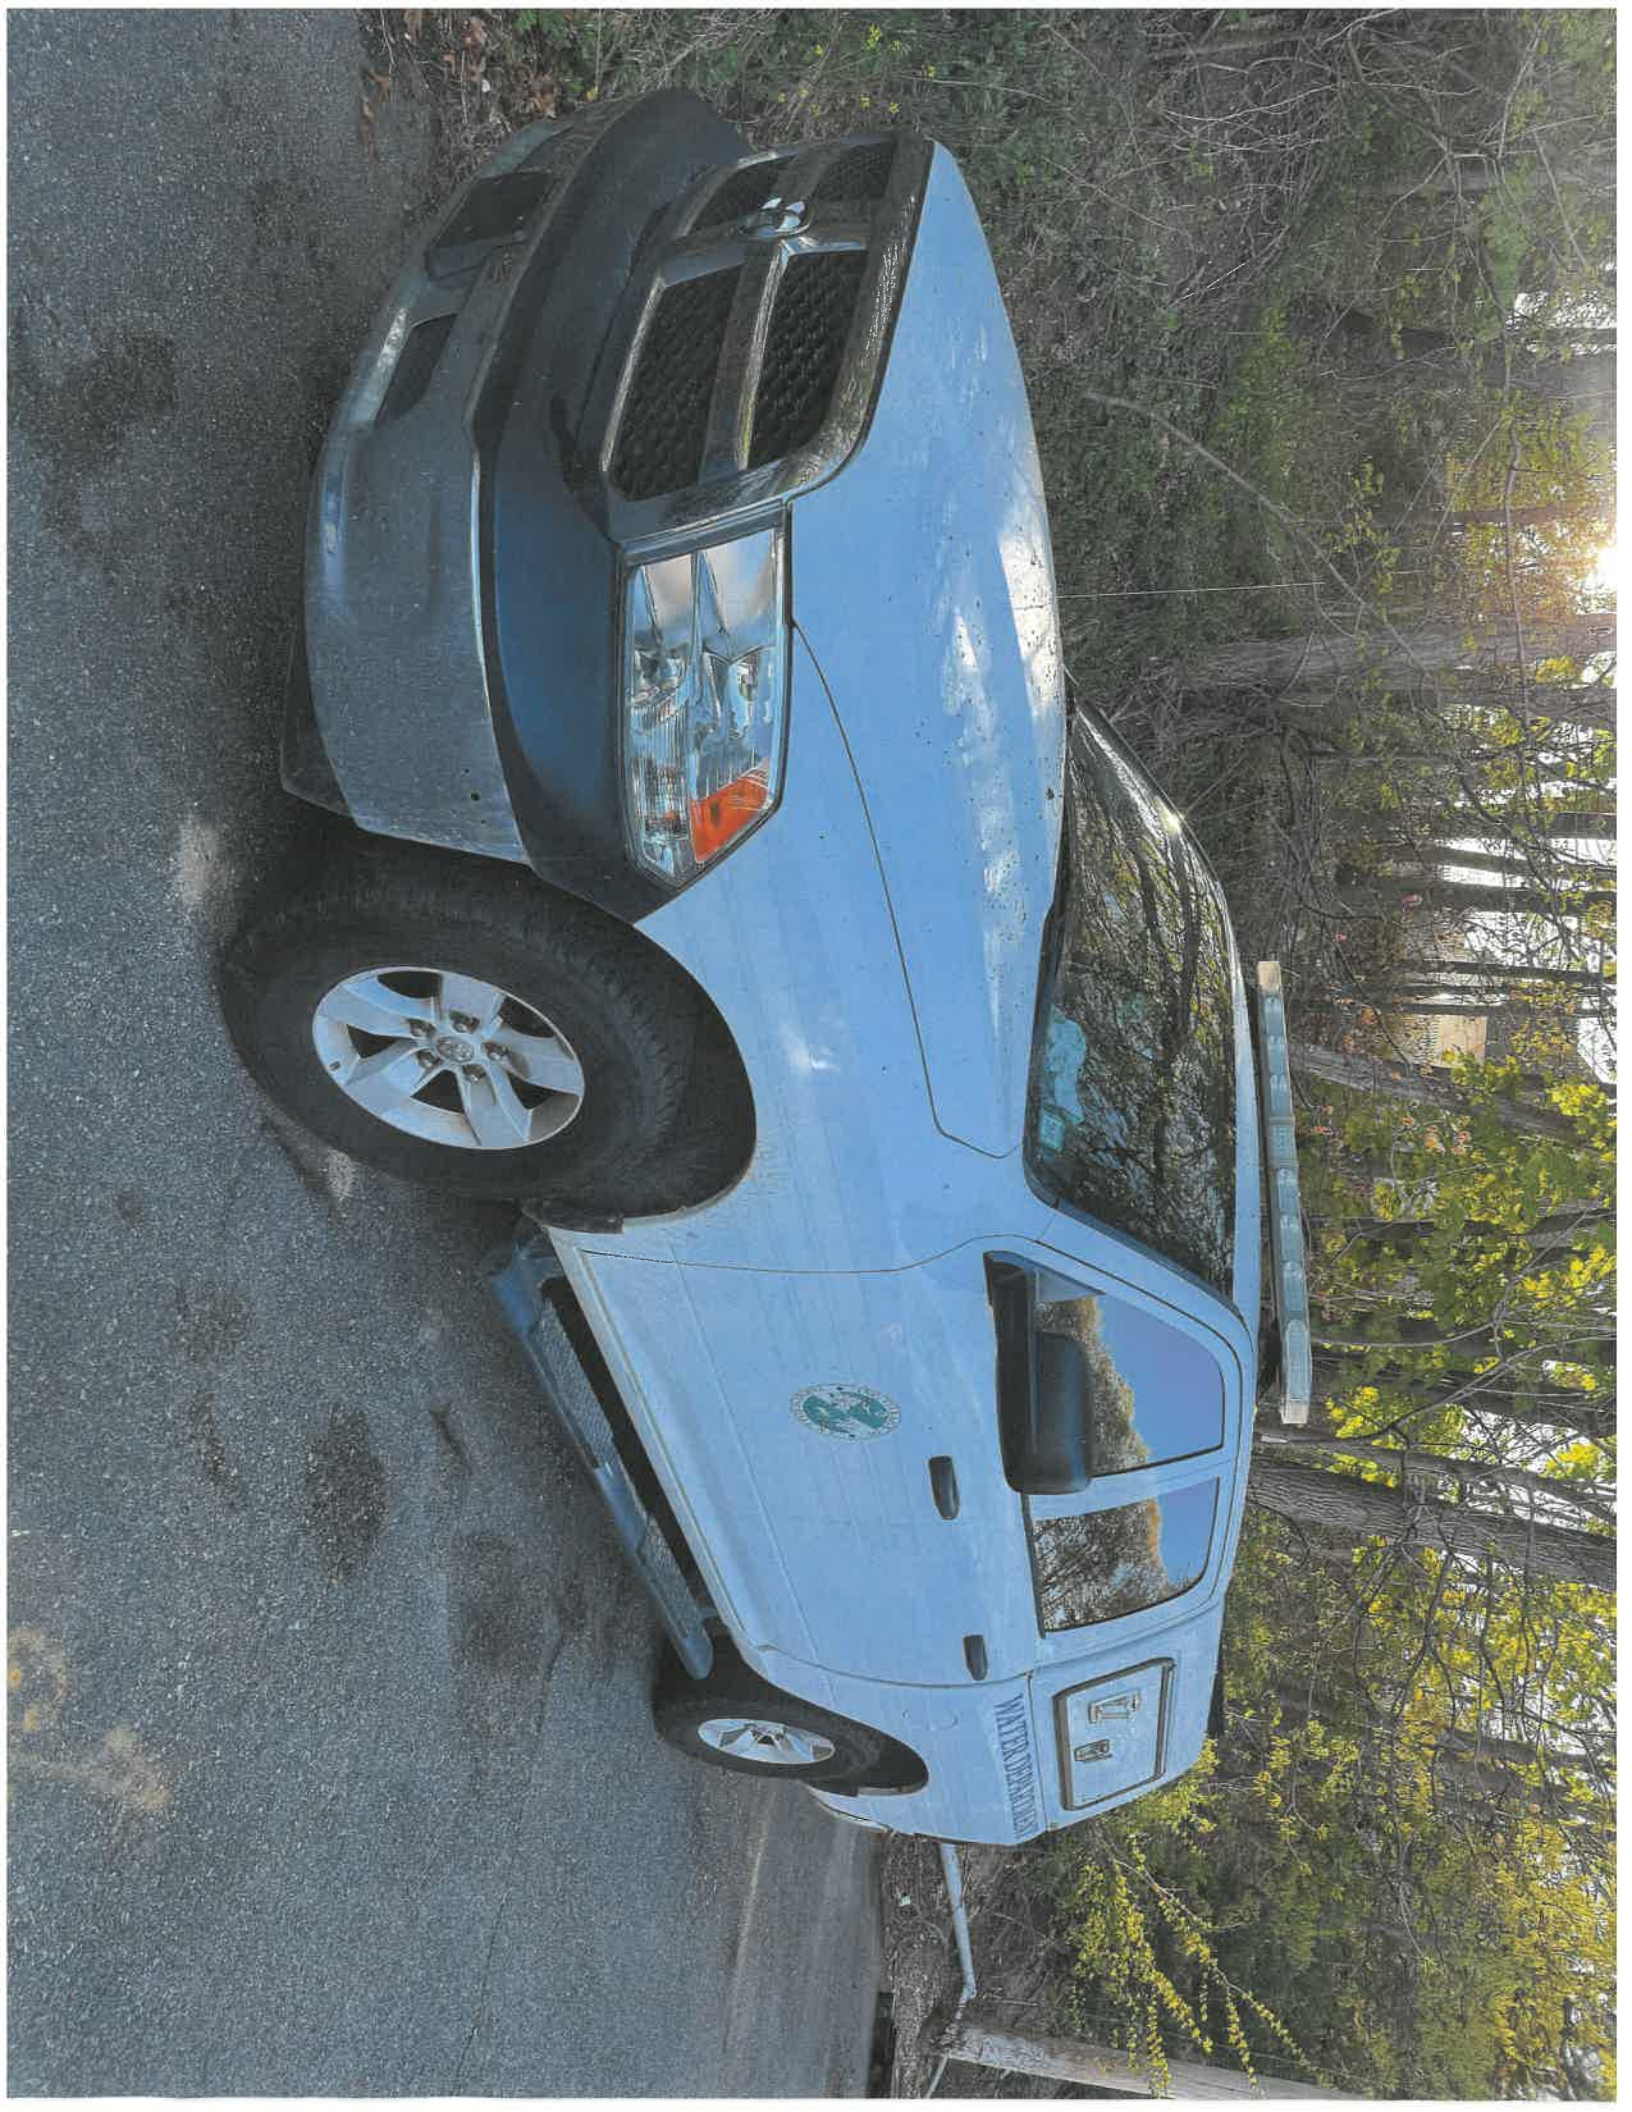

VIN # 1C6RR7XT5GS334875

Mileage 118077

Monday
5/4

This truck was once used as a chief's car then was handed down to the water department

Chief's Car Replacing This

Surplus

Village of Farmingdale DPW truck 3

2014 Ford F350

VIN # 1FTRF3B6XFEB55174

5/4

Mileage 39586.6

This truck is used for our everyday tasks in the village, also important to our summer/winter operations, Summertime this is our truck for power washing and our 2nd watering unit for flowers

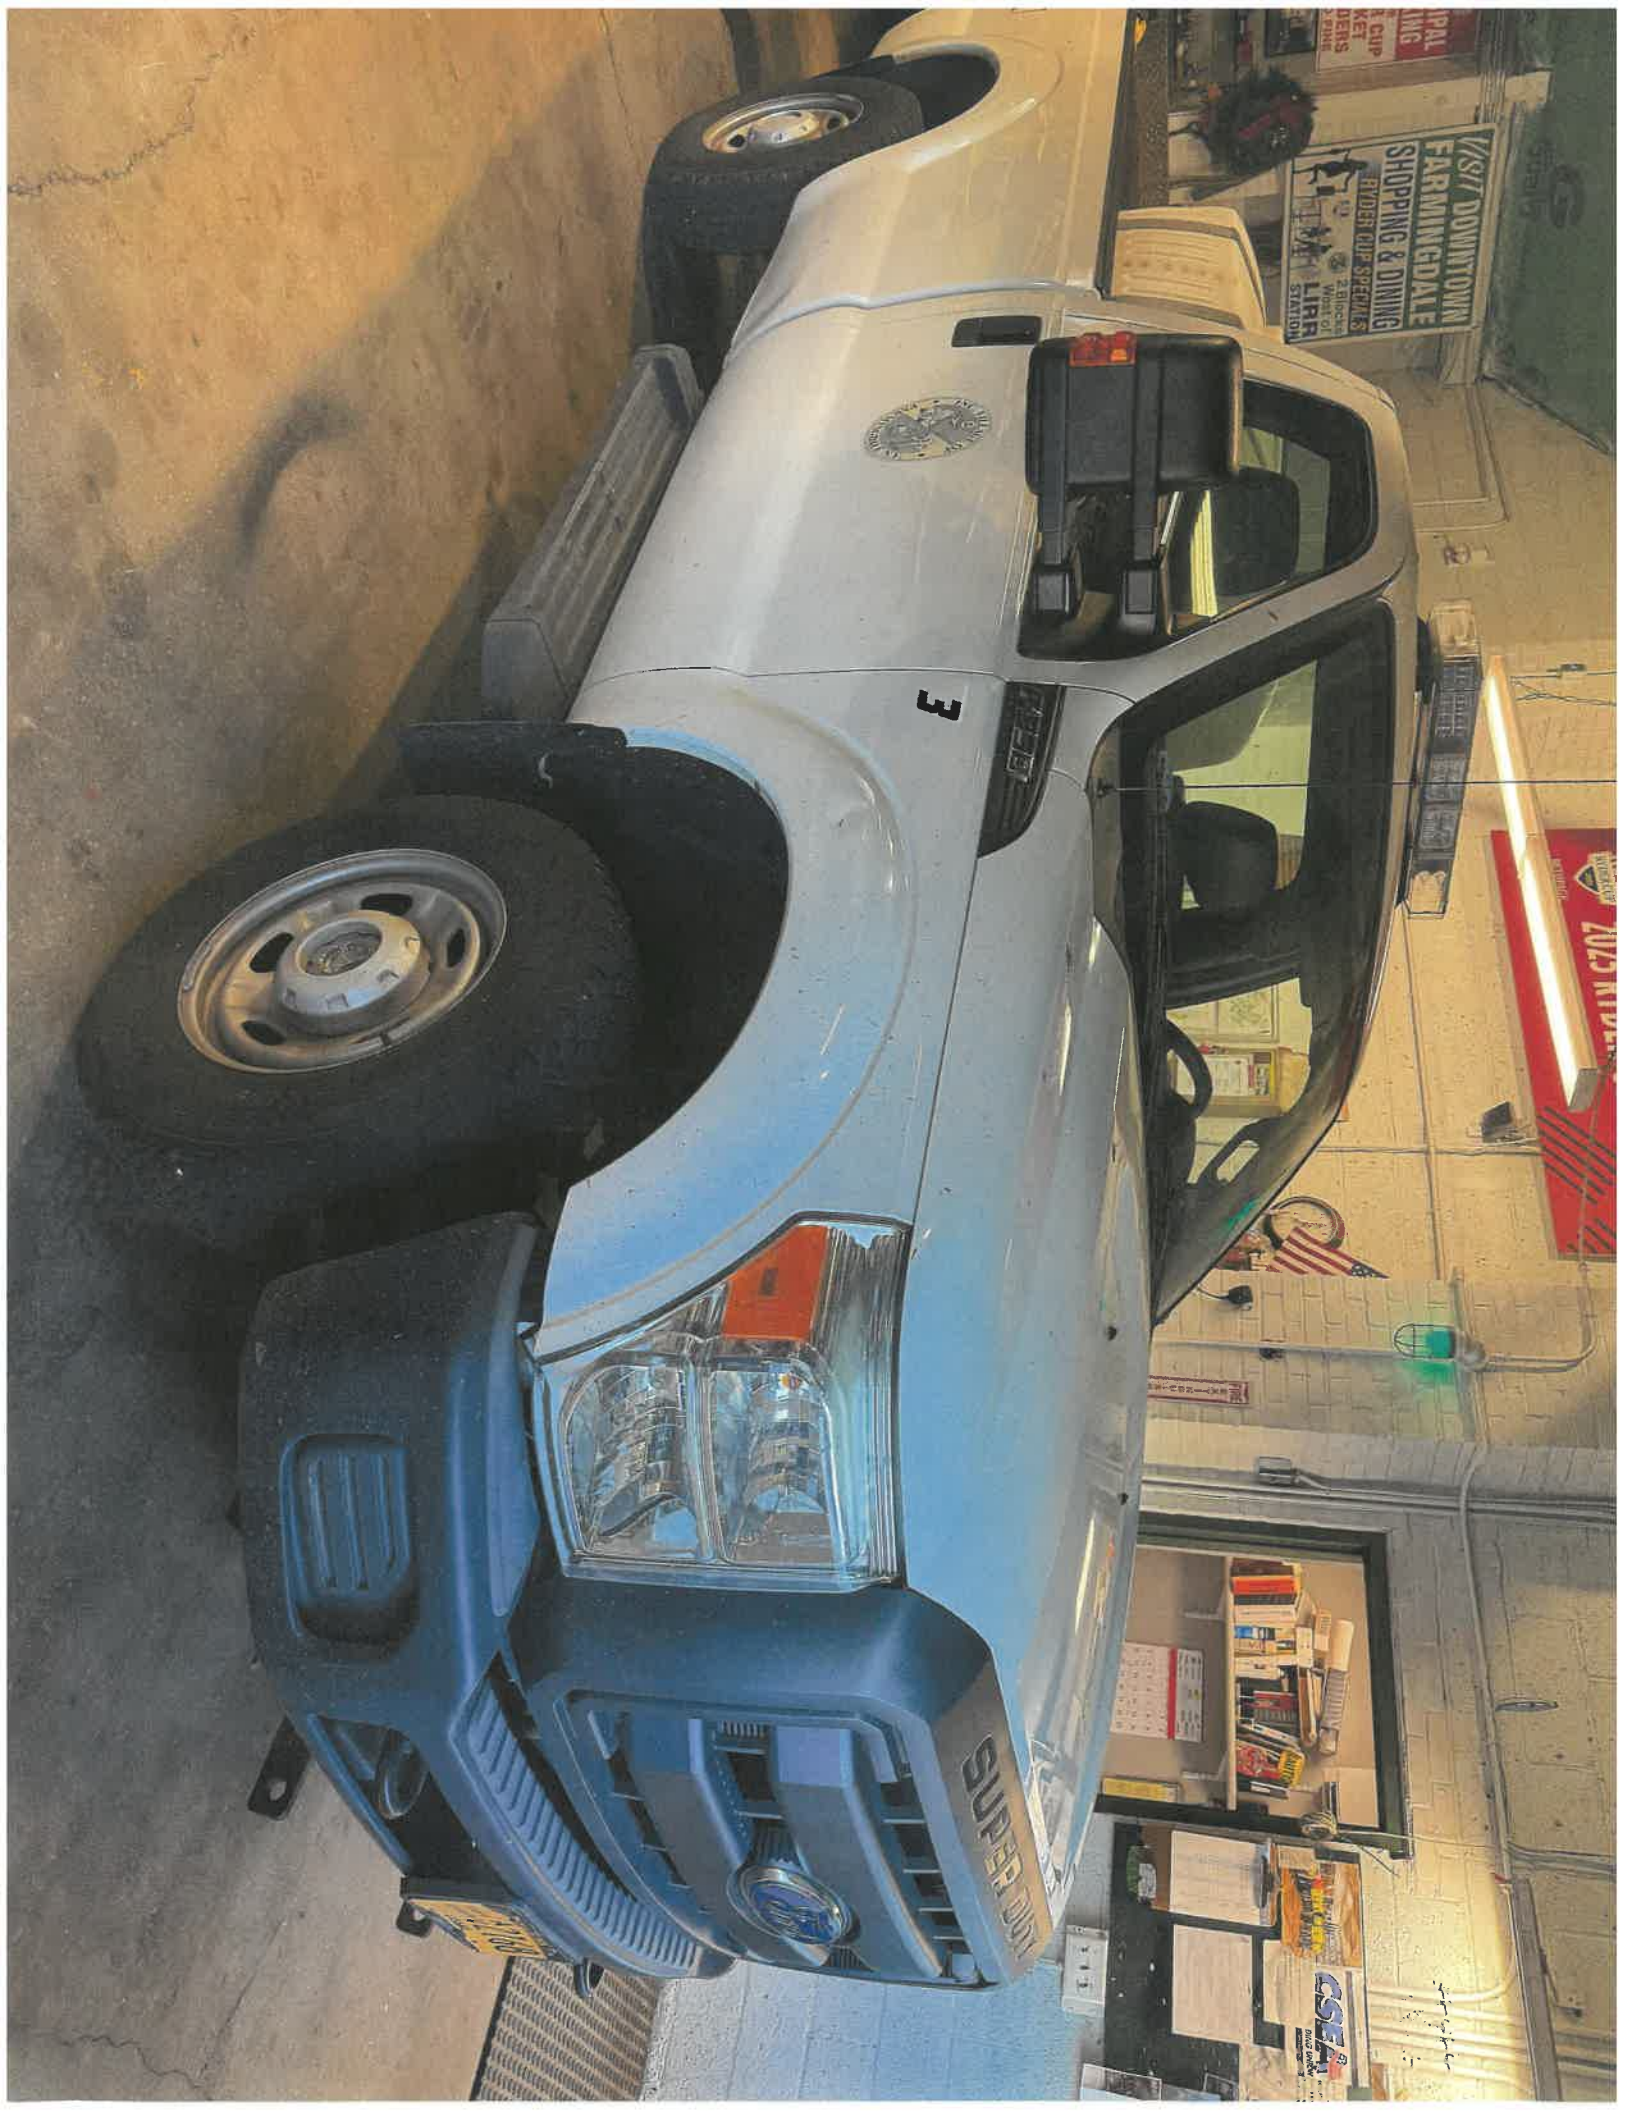

Issues!

No air conditioning, been recharged many times, too many leaks, expensive to replace the whole system.

Moderate to rust on the under-carriage including lift gate which is very important in lifting and moving around heavy objects like flower pots, floor risers for the village pops and all our other events etc.

Transmission has issues, no 4-wheel drive

Plow frame damaged due to many years of Hard plowing
